# STEERING AHEAD WITH *Sports*

**"Winning isn't everything, but wanting to win is." – Vince Lombardi**

With the spirit of Vince Lombardi's words resonating in the air, the sports day unfolded with great fervour and enthusiasm in the school. The event aimed not just at victory, but fostering a spirit of healthy competition, teamwork, and sportsmanship among the students. They showcased remarkable discipline and eagerness to participate from the very outset.

Various activities were meticulously organized, each catering to the diverse interests and abilities of the students. From the adrenaline-fueled sprint race to the amusing Lawn Hoopla partner race, from the test of balance in the Matki balance race to the exhilarating Tunnel relay, every event witnessed intense competition, with participants giving their best. The atmosphere crackled with energy as students cheered on their teammates, demonstrating the true essence of sportsmanship. Following the engaging sports activities, a potluck lunch awaited, marking a delightful interlude in the day's festivities.

*Exhibition of passion*

# POWER AND PERSEVERANCE

# FABULOUS FLARE OF TALENT

“Talent is nothing without dedication and discipline, and dedication and discipline is a talent in itself.”

# TERRIFIC TALENT TOUR...

# Fueling Dreams Through Lifelong Learning

Dear Readers

In an era where data is king and speed is paramount, cloud computing stands as the cornerstone of modern technological infrastructure. From revolutionising the way processes operate to empowering individuals with unparalleled access to resources, the importance of cloud computing cannot be overstated. One of the most significant advantages of cloud computing lies in its ability to scale resources according to demand.

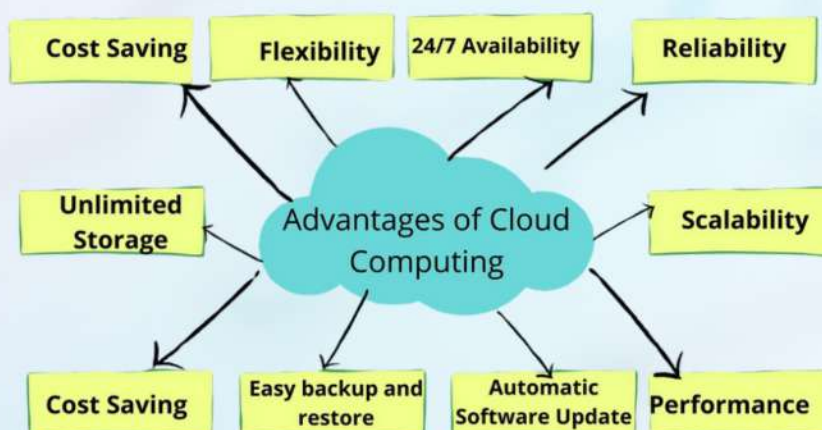

Ms. Ritika Gupta  
HOD Computer Science

It enables seamless scalability, allowing organisations to allocate resources dynamically. Cloud computing offers flexibility by decoupling hardware from software. It means that users can access computing resources—including storage, processing power, and applications—on demand. Whether it's deploying new software, testing applications or launching marketing campaigns, the cloud provides the necessary infrastructure without the hassle of procurement and maintenance.

Cloud computing facilitates seamless collaboration among geographically dispersed teams. Through cloud-based productivity tools, individuals can collaborate in real-time, irrespective of their physical location. This not only enhances productivity but also promotes inclusivity by accommodating remote work arrangements.

From a financial perspective, cloud computing offers significant cost savings. Organisations can pay only for the resources they consume. Scalability and elasticity of cloud services enable processes to optimize resource utilization. By consolidating workloads onto shared infrastructure and leveraging advanced virtualization technologies, cloud providers can achieve higher resource utilization rates. Embracing the cloud isn't just a technological imperative—it's a strategic imperative for organisations looking to stay ahead of the curve and unlock new opportunities in the digital age.

## Navigating the Cyber Security Landscape

In today's interconnected world, cybersecurity has become a paramount concern for individuals and organisations alike. With cyber threats evolving in sophistication and frequency, adopting proactive measures to safeguard sensitive data and digital assets has never been more crucial. Understanding the do's and don'ts of cybersecurity is essential for fortifying defences and mitigating risks effectively.

The Do's of Cybersecurity :

1. Use Strong, Unique Passwords
2. Enable Multi-Factor Authentication (MFA)
3. Keep Software Updated
4. Backup Data Regularly
5. Educate Yourself and others

The Don'ts of Cybersecurity:

1. Don't click on suspicious links or attachments
2. Avoid public Wi-Fi for sensitive activities
3. Don't overshare personal information
4. Don't neglect device security
5. Don't delay reporting security incidents

In the ever-evolving landscape of cybersecurity, adherence to best practices and avoidance of common pitfalls are imperative for safeguarding digital assets and maintaining trust in the digital ecosystem. By embracing the do's and avoiding the don'ts of cybersecurity, individuals and organisations can strengthen their resilience against a myriad of cyber threats and mitigate the risk of falling victim to malicious actors. .

## Digital Literacy Is the Key to the Future

“ Steve Jobs once said: “Technology is nothing. What's important is that you have faith in people, that they're basically good and smart, and if you give them tools, they'll do wonderful things with them.” ”

In an era dominated by technology, Digital literacy is crucial for adapting to the rapidly evolving technological landscape.

It enables individuals to navigate online platforms safely, discern credible information and protect their privacy. Digital literacy empowers users to leverage technology for learning, collaboration and self-expression while guarding against cyber threats and misinformation. By fostering digital literacy, we equip young individuals with the skills needed to succeed in an interconnected world, where digital fluency is an essential aspect of everyday life.

But We Still Don't Know What It Means-

Imagine a giant library filled with amazing information, but you can't quite understand the signs that lead you to the right books. That's what it can be like in our digital world without digital literacy!

Digital literacy is like learning a new language for the internet. It helps you use computers and tablets safely and explore the cool information online.

What being digitally literate means:

- Search detective: You can find what you're looking for online, just like using a library card catalogue!
- Safety first: The internet can be like a big playground, and digital literacy teaches you how to stay safe online.
- Content creator: With digital tools, you can create awesome things like stories, art and even games!

So next time you're online, remember your digital literacy skills are your superpower to explore and learn!

## ENGLISH CATALYSTS

### REST, if you must, but don't quit!

"Failure is not the opposite of success but a part of it." Who doesn't want to succeed and achieve his or her goals in life? Everyone has his own problems and limitations but we still aspire to achieve the greatest. You must have heard that success needs to be achieved at every cost! Well, this is true but not completely. Failure would probably come to your mind if I ask you what is that one thing that scares you the most. Of course, after working hard, all we expect is success but we can't deny the fact that life is not always on our side. We will face failures multiple times before succeeding in our life. Yet the journey doesn't end once we succeed, for we set higher goals than before. Failure is something which makes us keep going on the path of life while gaining a lot of experience. Hence, one shouldn't sit back and give up just because of losing once because life is all about failure and success.

**By- Roma kohli**  
**X C**

### Smile

We list all sorts of things we need to do  
From studies to football, from cooking  
to drive through  
That ticking clock's never going to stop.  
You forgot to relax a moment,  
Feel blessed and wear a humble smile.  
Because it's a gesture so small,  
But it costs nothing at all.  
You may feel it isn't worthwhile  
But Oh! You know what it can  
endeavour;  
A smile's beam of light,  
Spreading the shades of happiness  
over heights.

# ERA OF DIGITAL LITERACY

Class X students undertook an activity to explore the influence of Artificial Intelligence (AI) on social media. Through posters and presentations, they analysed AI's role, benefits, challenges, and ethical concerns in shaping social media dynamics.

Students recognized AI's ability to enhance user experience through personalized content but raised concerns about data privacy and algorithmic bias. They highlighted the need for ethical considerations to mitigate negative impacts on mental health and online safety.

## VISIT TO YAKULT FACTORY Embracing the Joy of Discovery....

On May 7, 2024, the Commerce Department of Titiksha Public School organized a visit to Yakult India for the Class XII Commerce students. The purpose of the visit was to provide students with practical insights into the operations of a leading company in the food and beverage industry.

The students received a comprehensive introduction to Yakult, its history, mission, and core values. They witnessed the firsthand intricate processes involved in the production of Yakult probiotic drinks, from the fermentation of lactobacillus bacteria to the packaging of the final product.

Students gained insights into the various quality checkpoints and testing procedures conducted at different stages of the production process. The visit offered them valuable insights into the operations of a prominent company in the food and beverage industry, as well as a deeper understanding of the concepts learned in their commerce curriculum.

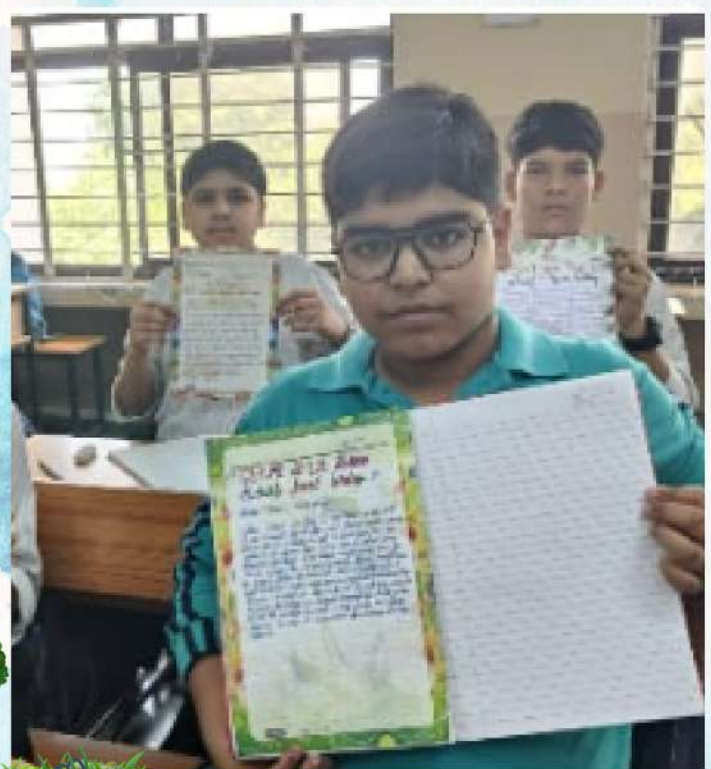

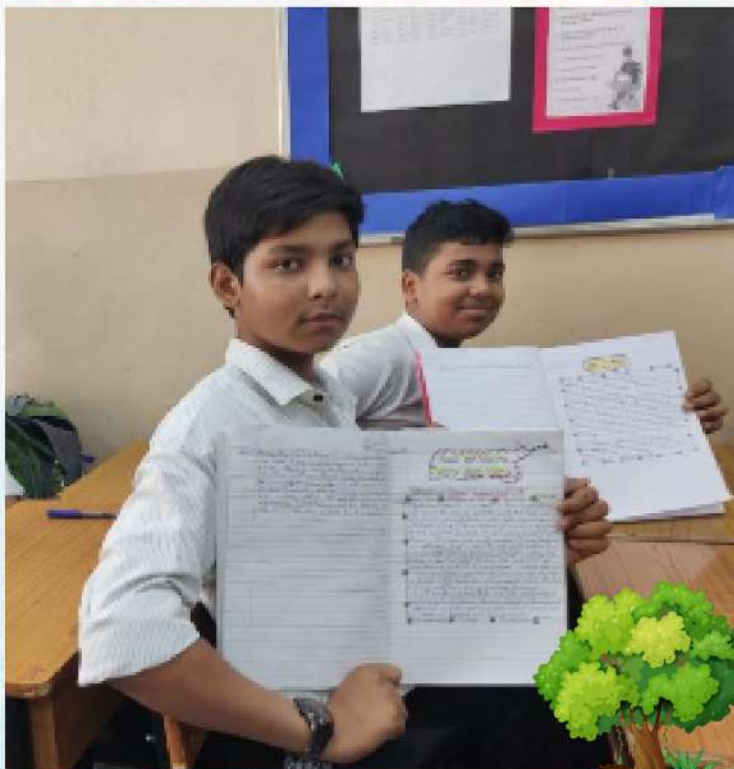

# COUNT YOUR BLESSINGS

Speech has always been a judicious way to discover the hidden potential among the learners. An activity 'Count your Blessings' was conducted where the students were stating the overview of the topic and its value inculcated in life.

A wonderful demonstration of writing skills was seen among the students with an exemplary effort to display their great potential. Count Your Blessings means to believe in the situations that come your way. A positive environment was instilled in the class. The learners can look up and aim high to believe in themselves. Vocabulary, addressing the audience etc. were poured in as a mandatory task in their writing. It was a wonderful class activity with invigorating ideas and thoughts creating a meaningful language class. Students understood that life is a series of thousands of tiny miracles, we only need to notice them.

# Unveiling the Hidden Symphony of the Cosmos....

**Without mathematics, there's nothing you can do. Everything around you is Mathematics. Everything around you is numbers.**

Geometry is a branch of mathematics that deals with the measurement, properties and relationships of points, lines, angles, surfaces and solids.

An activity titled 'Jungle Safari' on the topic 'Basic Geometrical Concepts' was conducted in class VI on 13/05/2024. The students learned about geometry and its applications in real life. The educator explained some real life examples for better understanding of various terms and their applications by the students.

# Youth Entrepreneurs: Igniting Innovation in the Classroom

In a class twelve entrepreneurship case study, students showcased remarkable creativity, embodying the spirit of innovation. From crafting unique business models to leveraging digital platforms for marketing, their entrepreneurial endeavours reflected a keen understanding of market dynamics.

### Brainstorming

- Set a time limit
- Target a problem/goal
- No judgment or criticism
- Encourage all ideas
- Aim for quantity
- Build on ideas
- Stay visual
- Allow one conversation at a time

Through the lens of this case study, the students harnessed their creativity to solve real-world problems and seize emerging opportunities. Furthermore, this case study reflected the importance of hands-on learning experiences in nurturing the next generation of business leaders.

# MAGIC SHOW BUZZING HUES

If we all could see the world through the eyes of a child we would see magic in everything.

# Gratitude Day

# MAGICAL, MIRACULOUS AND MARVELLOUS MOTHERHOOD

# LET'S ROCK THIS **SUMMER** IN STYLE!

# SLIDE INTO MAKING A BIG SPLASH!

# MY FAMILY, MY PRIDE

“Being a family means you are part of something very wonderful. It means you will love and be loved for the rest of your life. No matter what.”

# Promoting Healthy Eating Habits

In an effort to educate and instill healthy eating habits from a young age, the grade 3 students engaged in a creative and interactive activity focused on understanding the concept of a balanced diet. The students explored the concept of a balanced diet by creating visual representations on paper plates. Using cut-outs of energy-giving, protective and body-building foods, the children assembled nutritious meals. This hands-on approach enabled them to understand the importance of incorporating diverse food groups for optimal health.

## Giggling toddlers celebrating birthday hues..

# BHAG MILKHA BHAG-CELEBRATING WORLD ATHLETICS DAY

The true sportsmanship can be embraced by accepting the impediments and conquering them with the much required indomitable spirit.

# A Trip to Mussoorie:

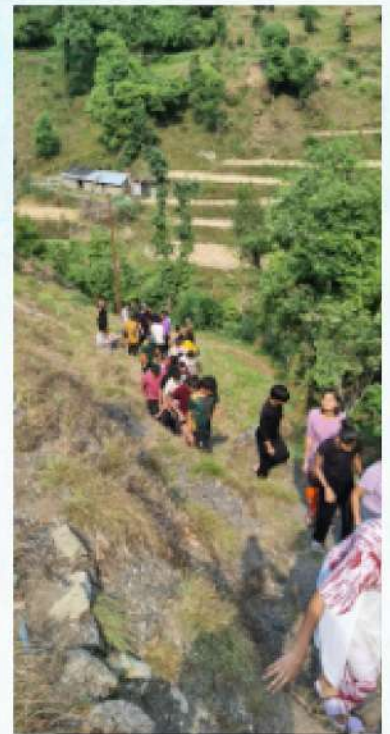

## Discover the Queen of Hills

LET'S GO

ADVENTURE

Adventure is the path that leads us closer to discovering our true purpose, unlocking our potential and finding fulfilment in life.

Our zealous wanderers had an amazing expedition at Rocksport Adventure Camp, Mussoorie, which was both challenging and rewarding. The activities of rock climbing, rappelling, zip lining and river crossing not only provided physical and mental challenges but also reinforced the importance of teamwork, trust and adaptability. In these physically demanding activities students were able to sharpen their strength, endurance and mental fortitude. Participants had an immense sense of accomplishment.

## एक वो ज़माना था...

दिव्यांशी सिंघला  
आठवीं - फ

वो बचपन सुहाना था... जब स्कूल ना जाने का बहाना ढूँढते थे, जब बस्ता पीटते हुए एक - एक घंटा रोया करते थे दोपहर को बर्फ का गोला तो खाना पसंद ही था; साथ ही बेलन भी खाया करते थे।

एक वो ज़माना था... जब दोस्तों के साथ अठखेलियाँ करता था पेड़ से आम भी तोड़ा करता था नीचे खड़ा दोस्त तो भाग जाता था, मैं ऊपर अटका रहता था;

मन में चाहत तो चाँद पर जाने की थी; पर पेट तितली को पकड़ने की चाहत रखता था।

## समय का महत्व

अब्दुल कलाम साहब कहते थे कि प्रत्येक व्यक्ति को बड़े सपने देखने चाहिए। जो लोग बड़े सपने नहीं देखते, वो बड़े बन भी नहीं सकते। इसलिए बड़े सपने देखो और बड़ा लक्ष्य बनाओ।

समय की कीमत समझें , दुनिया में जितने भी सफल इंसान हैं उन सबके पास भी एक दिन में 24 घंटे ही होते हैं। वो इन्हीं 24 घंटों का सही इस्तेमाल करके सफल हुए हैं। दरअसल ये लोग समय की कीमत समझते थे, इन्होंने कभी भी अपने समय को बर्बाद नहीं किया।

अगर आपको भी सफल होना है तो फालतू समय न बर्बाद करें। संसार की सबसे मूल्यवान चीज है-'समय'। समय किसी के लिए भी नहीं रुकता। जो इस समय का सही उपयोग कर लेता है, वह सफल व्यक्ति है।

## अनमोल वचन - भक्ति

भक्ति जब भूख में प्रवेश करती है तो भूख व्रत बन जाता है, भक्ति जब पानी में प्रवेश करती है तो पानी चरणामृत बन जाता है,

भक्ति जब भोजन में प्रवेश करती है तो भोजन प्रसाद बन जाता है, भक्ति जब संगीत में प्रवेश करती है तो संगीत कीर्तन बन जाता है, भक्ति जब घर में प्रवेश करती है तो घर मंदिर बन जाता है, भक्ति जब यात्रा में प्रवेश करती है तो यात्रा तीर्थ यात्रा बन जाती है, भक्ति जब कर्म में प्रवेश करती है तो कर्म पूजा बन जाता है। भक्ति जब नर में प्रवेश करती है तो नर नारायण बन जाता है।

## मैं और मैं का अंतर

मैं मैं करेगा कब तक  
जब तक इस दुनिया में है  
हाँ , मैं की पहचान बनाना है  
मैं के पदचिह्न छोड़ना है  
पर सारे अहंकार की जड़ भी मैं है  
पर मैं से ऊपर उठकर सब पर आना है  
भारत के ध्येय वाक्य  
वसुधैव कुटुंबकम् को साकार बनाना है।

# हिंदी गतिविधि-

## वृक्ष बचाओ पर पोस्टर

बुधवार (8.05.24) को वृक्ष बचाओ की गतिविधि कराई गई। जिसके अंतर्गत छात्रों ने वृक्ष बचाओ पर पोस्टर बनाकर उससे संबंधित नारा लेखन किया एवं वृक्षों के लाभ और हमारे जीवन में वृक्षों के उपयोग पर चर्चा की। छात्रों ने अपनी कला का प्रदर्शन करते हुए अत्यंत आकर्षक पोस्टरों का निर्माण किया एवं वृक्षों के महत्त्व समझते हुए वृक्षों के बचाव पर विभिन्न नारों का लेखन किया। क्योंकि "वृक्ष है जहाँ- जहाँ धरती पर स्वर्ग है वहाँ-वहाँ ।"

## साझेदारी

दिनांक 14.05.24 को आठवीं कक्षा के छात्रों ने 'साझेदारी गतिविधि' के अंतर्गत अपने मित्रों के गुण बताते हुए परियोजना कार्य पूरा किया। अपने मित्रों की फोटो लगाकर बड़े उत्साह और रुचि पूर्ण ढंग से कार्य पूरा किया।
